

# ONE CAN OC64 - EGGSHELL

**A quick-drying, low-odour, water-thinned primer/finish coat, with excellent adhesion, stain blocking and anticorrosive properties.**

## Recommended Areas of Use

For use as a quick-drying, adhesion-promoting, stain-blocking and anti-corrosive coating on ferrous metals, non-ferrous metals, common plastics (e.g. melamine and uPVC), ceramic tiles, glass, wood and existing painted surfaces. Offers a hard-wearing, flexible coating with weather and light resistance, ideal for use over existing cladding coatings (coil, plastisol and powder coatings) with minimal preparation.

## Certificates & Approvals

Manufactured under the auspices of ISO 9001:2015 quality & ISO 14001:2015 environmental management systems. 2004/42/EC EU limit value for this product (Annex IIA/i. wb): 140g/l (2010). This product contains max 30 g/l VOC.

## Properties

| <b>Recommended wet film thickness</b> | 75-100 microns/coat                                      | <b>Recommended dry film thickness</b> | 35 microns/coat   |

## Suitable Surfaces

Suitable for use over most properly cleaned and prepared interior and exterior commercial wood, plastic and metals. Compatibility with existing coatings should be confirmed by preparing and painting a test patch. Anticorrosive for application to ferrous and non-ferrous metals which have been fully prepared. Seals most stains in the primer coat including water, nicotine, hardwood resin bleed, asphalt, and many more.

## Application Information

\*Drying times will be prolonged at lower temperatures and over application.

All surfaces must be dry and dust free before coating. Application should always conform with the codes of practice described in BS 6150 and BS 5493.

**Brush and Roller** - Supplied ready for use. Thin with 5-15% water if required.

**Conventional Air Spraying** - Thin with 5-15% water as required. Tip size - 2.0mm. Tip pressure - 60psi (0.4MPa) approximately. (Guidelines Only).

**Airless Spraying** - Thin with 5-15% water as required. Tip size - 19 thou (0.48mm) approximately. Tip pressure - 2100 psi (15MPa) approximately. (Guidelines Only).

## Cleaning

Equipment should be cleaned immediately after use with water.

## Specifications

### Surface Preparation

Loose and non-adhered coatings should be removed. Cleaning using Bradite Industrial Degreaser TD39 or methylated spirit is recommended to remove oils, grease and other contamination.

Intact areas of existing coatings should, ideally, be roughened by manual or mechanical sanding. Feather back any exposed areas to a sound coating edge. Cracks and pits should be filled using a suitable filler before painting. Substrate should be dust free and completely dry before coating.

**Stain locking:** Encapsulates stains in the primer coat, application of second coat will be required to hide, and in extreme cases a third coat may be required. One Can should be allowed to hard dry prior to overcoating. This will take at least one hour, over application may result in longer drying times

**Aluminum, stainless steel, galvanised steel, copper and other metals:** Cleaned and degreased with methylated spirit, and lightly abraded if possible. White salts on weathered galvanising must be removed during cleaning and degreasing. Light surface rusting should be treated with Bradite Rust Convertor RC46. Heavy rusting to be removed to clean metallic finish (SIS-St 3).

**New Wood:** Ensure moisture content of the timber is below 15% before commencing application. Damp wood should never be painted as this may give rise to blistering, flaking, cracking and premature coating failure. Knots to be wiped using methylated spirit, for heavy or active knots spot prime with aluminium wood primer.

**Hard Woods:** Wipe with methylated spirit to remove excess resin, changing the face of the cloth regularly. Lightly abrade.

**Green oak:** Should not be painted unless it has been weathered for at least 6 months.

**Exterior cladding, Powder coated, Varnish and Existing paint finish:** Remove all loose and flaking paintwork. Degrease using Bradite Industrial Degreaser TD39, followed by clean water rinse. Rub down thoroughly with a medium grade sandpaper to provide a key and a defect free smooth surface, "feathering in" areas where paint has been removed.

**UPVC, Formica, Melamine and Plastics:** For long term performance, degrease using Bradite Industrial Degreaser TD39 or methylated spirit & lightly abrade surfaces.

**New plaster walls:** For plaster skim, allow at least four weeks for the plaster to thoroughly dry. Apply a primer coat by thinning the paint with a 5 to 25% (v/v) addition of clean water, depending upon the porosity of the substrate. Cut in by brushing at the same dilution recommendation as for priming, to promote flow and sealing of the substrate.

For new, fully plastered walls, allow at least six months for the plaster to thoroughly dry before painting.

This product is not recommended for painting lime or other natural plasters.

**Masonry, brick, concrete:** Clean, dry and free of contamination, existing coatings to be sound and well adhered. Any loose flaking material should be removed and sanded back to a sound, well-feathered edge. New concrete or masonry to be fully cured. Mould or mildew to be removed and area treated with good quality fungicidal wash following manufacturer's instructions.

## Painting System

|          |                                    |
|----------|------------------------------------|
| 1st coat | Bradite ONE CAN OC64               |
| 2nd coat | Bradite ONE CAN OC64               |
| 3rd coat | Bradite ONE CAN OC64 [If required] |

## Summary Safety Information

Always refer to the Health and Safety sheet for the product before use, and observe the warning phrases on the label. In general, avoid inhalation of spray mist and skin contact by the use of masks, gloves and other personal protection. Eyes should be copiously washed with water or proprietary wash, and medical attention obtained. Skin should be thoroughly washed using a cleanser and soap and water.

Emergency number : +44 (0)1248 600315

**SECTION 2: Hazards identification****2.1. Classification of the substance or mixture****Classification according to Regulation (EC) No. 1272/2008 [CLP]**

Hazardous to the aquatic environment – Chronic Hazard, Category 2 H411  
Full text of H- and EUH-statements: see section 16

**Adverse physicochemical, human health and environmental effects**

Toxic to aquatic life with long lasting effects.

**2.2. Label elements****Labelling according to Regulation (EC) No. 1272/2008 [CLP]**

Hazard pictograms (CLP) :

GHS09

Signal word (CLP) :

-

Hazard statements (CLP) :

H411 - Toxic to aquatic life with long lasting effects.

Precautionary statements (CLP) :

P273 - Avoid release to the environment.

P391 - Collect spillage.

P501 - Dispose of contents/container to hazardous or special waste collection point, in accordance with local, regional, national and/or international regulation.

EUH-statements

: EUH208 - Contains 1,2-BENZISOTHIAZOLIN-3-ONE (2634-33-5). May produce an allergic reaction.

Comments : Contains 2-methylisothiazol-3(2H)-one and 1,2-benzisothiazol-3(2H)-one to maintain storage stability. The percentages "total (free)%" of terbutryn are indicated. The free proportion is subject to the classification of the mixture with regard to environmentally hazardous properties, sensitisation. The percentages "total (free)%" of 2-octyl-2H-isothiazol-3-one are indicated. The free proportion is subject to the classification of the mixture with regard to environmentally hazardous properties, skin and eye irritation, sensitisation. The percentages "total (free)%" of pyrithione zinc are indicated. The free proportion is subject to the classification of the mixture with regard to environmentally hazardous properties, skin and eye irritation. Hazard statements see section 16

Full text of H- and EUH-statements: see section 16

## SECTION 4: First aid measures

### 4.1. Description of first aid measures

First-aid measures after inhalation : Remove person to fresh air and keep comfortable for breathing.  
First-aid measures after skin contact : Wash skin with plenty of water.  
First-aid measures after eye contact : Rinse eyes with water as a precaution.  
First-aid measures after ingestion : Call a poison center or a doctor if you feel unwell.

### 4.2. Most important symptoms and effects, both acute and delayed

No additional information available

### 4.3. Indication of any immediate medical attention and special treatment needed

Treat symptomatically.

## SECTION 5: Firefighting measures

### 5.1. Extinguishing media

Suitable extinguishing media : Water spray. Dry powder. Foam. Carbon dioxide.

### 5.2. Special hazards arising from the substance or mixture

Hazardous decomposition products in case of fire : Toxic fumes may be released.

### 5.3. Advice for firefighters

Protection during firefighting : Do not attempt to take action without suitable protective equipment. Self-contained breathing apparatus. Complete protective clothing.

## SECTION 6: Accidental release measures

### 6.1. Personal precautions, protective equipment and emergency procedures

#### 6.1.1. For non-emergency personnel

Emergency procedures : Ventilate spillage area.

#### 6.1.2. For emergency responders

Protective equipment : Do not attempt to take action without suitable protective equipment. For further information refer to section 8: "Exposure controls/personal protection".

# ONE CAN EGGSHELL

## Safety Data Sheet

according to the REACH Regulation (EC) 1907/2006 amended by Regulation (EU) 2015/830

### 6.2. Environmental precautions

Avoid release to the environment.

### 6.3. Methods and material for containment and cleaning up

For containment : Collect spillage.  
Methods for cleaning up : Take up liquid spill into absorbent material.  
Other information : Dispose of materials or solid residues at an authorized site.

### 6.4. Reference to other sections

For further information refer to section 13.

## SECTION 7: Handling and storage

### 7.1. Precautions for safe handling

Precautions for safe handling : Ensure good ventilation of the work station. Wear personal protective equipment.  
Hygiene measures : Do not eat, drink or smoke when using this product. Always wash hands after handling the product.

### 7.2. Conditions for safe storage, including any incompatibilities

Storage conditions : Store in a well-ventilated place. Keep cool.

### 7.3. Specific end use(s)

Coatings and paints, thinners, paint removers.

## SECTION 8: Exposure controls/personal protection

### 8.1. Control parameters

#### 8.1.1 National occupational exposure and biological limit values

#### A MIXTURE OF: 5-CHLORO-2-METHYL-2H-ISOTHIAZOL-3-ONE [EC NO 247-500-7] AND 2-METHYL-2H-ISOTHIAZOL-3-ONE [EC NO 220-239-6] (55965-84-9)

### 8.2.3. Environmental exposure controls

#### Environmental exposure controls:

Avoid release to the environment.

# ONE CAN EGGSHELL

## Safety Data Sheet

according to the REACH Regulation (EC) 1907/2006 amended by Regulation (EU) 2015/830

### SECTION 9: Physical and chemical properties

#### 9.1. Information on basic physical and chemical properties

|   |                               |
|---|-------------------------------|
| Physical state                                  | : Liquid                      |
| Appearance                                      | : Liquid.                     |
| Colour  | : Various.                    |
| Odour   | : Barely perceptible odour.   |
| Odour threshold                                 | : No data available           |
| pH  | : ≈ 8.5                       |
| Relative evaporation rate (butylacetate=1)      | : No data available           |
| Melting point                                   | : Not applicable              |
| Freezing point                                  | : ≈ 0 °C                      |
| Boiling point                                   | : ≈ 100 °C                    |
| Flash point                                     | : > 100 °C                    |
| Auto-ignition temperature                       | : Not applicable.             |
| Decomposition temperature                       | : No data available           |
| Flammability (solid, gas)                       | : Not applicable              |
| Vapour pressure                                 | : No data available           |
| Relative vapour density at 20°C                 | : No data available           |
| Relative density                                | : No data available           |
| Density   | : ≈ 1.24 kg/l                 |
| Solubility                                      | : Miscible with water.        |
| Partition coefficient n-octanol/water (Log Pow) | : No data available           |
| Viscosity, kinematic                            | : ≈ 145.16 mm <sup>2</sup> /s |
| Viscosity, dynamic                              | : No data available           |
| Explosive properties                            | : No data available           |
| Oxidising properties                            | : No data available           |
| Explosive limits                                | : No data available           |

#### 9.2. Other information

VOC content : ≈ 32 g/l

### SECTION 10: Stability and reactivity

#### 10.1. Reactivity

The product is non-reactive under normal conditions of use, storage and transport.

#### 10.2. Chemical stability

Stable under normal conditions.

#### 10.3. Possibility of hazardous reactions

No dangerous reactions known under normal conditions of use.

#### 10.4. Conditions to avoid

None under recommended storage and handling conditions (see section 7).

#### 10.5. Incompatible materials

No additional information available

#### 10.6. Hazardous decomposition products

Under normal conditions of storage and use, hazardous decomposition products should not be produced.

### SECTION 11: Toxicological information

#### 11.1 Information on toxicological effects

Acute toxicity (oral) : Not classified

# ONE CAN EGGSHELL

## Safety Data Sheet

according to the REACH Regulation (EC) 1907/2006 amended by Regulation (EU) 2015/830

Acute toxicity (dermal) : Not classified  
Acute toxicity (inhalation) : Not classified

| <b>POLYPROPYLENE GLYCOL (25322-69-4)</b> |   |

## SECTION 15: Regulatory information

### 15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

#### 15.1.1. EU-Regulations

##### REACH Annex XVII (Restriction List)

Contains no substance(s) listed on REACH Annex XVII (Restriction Conditions)

##### REACH Annex XIV (Authorisation List)

Contains no substance(s) listed on REACH Annex XIV (Authorisation List)

##### REACH Candidate List (SVHC)

Contains no substance(s) listed on the REACH Candidate List

##### PIC Regulation (Prior Informed Consent)

Contains no substance(s) listed on the PIC list (Regulation EU 649/2012 concerning the export and import of hazardous chemicals)

##### POP Regulation (Persistent Organic Pollutants)

Contains no substance(s) listed on the POP list (Regulation EU 2019/1021 on persistent organic pollutants)

##### Ozone Regulation (1005/2009)

Contains no substance(s) listed on the Ozone Depletion list (Regulation EU 1005/2009 on substances that deplete the ozone layer)

##### VOC Directive (2004/42)

VOC content :  $\approx 32$  g/l

##### Explosives Precursors Regulation (2019/1148)

Contains no substance(s) listed on the Explosives Precursors list (Regulation EU 2019/1148 on the marketing and use of explosives precursors)

# ONE CAN EGGSHELL

## Safety Data Sheet

according to the REACH Regulation (EC) 1907/2006 amended by Regulation (EU) 2015/830

### Drug Precursors Regulation (273/2004)

Contains no substance(s) listed on the Drug Precursors list (Regulation EC 273/2004 on the manufacture and the placing on market of certain substances used in the illicit manufacture of narcotic drugs and psychotropic substances)

### 15.1.2. National regulations

#### France

| Occupational diseases |  |
|-----------------------|--|
| Code                  | Description                                |
| RG 65                 | Eczematiform lesions of allergic mechanism |
| RG 66                 | Occupational rhinitis and asthma           |

#### Germany

Employment restrictions : Observe restrictions according Act on the Protection of Working Mothers (MuSchG).  
Observe restrictions according Act on the Protection of Young People in Employment (JArbSchG).

Water hazard class (WGK) : WGK 2, Significantly hazardous to water (Classification according to AwSV, Annex 1).

Storage class (LGK, TRGS 510) : LGK 12 - Non-combustible liquids.

Joint storage table :

|          |         |          |          |           |
|----------|---------|----------|----------|-----------|
| LGK 1    | LGK 2A  | LGK 2B   | LGK 3    | LGK 4.1A  |
| LGK 4.1B | LGK 4.2 | LGK 4.3  | LGK 5.1A | LGK 5.1B  |
| LGK 5.1C | LGK 5.2 | LGK 6.1A | LGK 6.1B | LGK 6.1C  |
| LGK 6.1D | LGK 6.2 | LGK 7    | LGK 8A   | LGK 8B    |
| LGK 10   | LGK 11  | LGK 12   | LGK 13   | LGK 10-13 |

Joint storage not permitted for : LGK 1, LGK 6.2, LGK 7.

Joint storage with restrictions permitted for : LGK 4.1A, LGK 4.3, LGK 5.1C.

Joint storage permitted for : LGK 2A, LGK 2B, LGK 3, LGK 4.1B, LGK 4.2, LGK 5.1A, LGK 5.1B, LGK 5.2, LGK 6.1A, LGK 6.1B, LGK 6.1C, LGK 6.1D, LGK 8A, LGK 8B, LGK 10, LGK 11, LGK 12, LGK 13, LGK 10-13.

Hazardous Incident Ordinance (12. BImSchV) : Is not subject of the Hazardous Incident Ordinance (12. BImSchV)

#### Netherlands

ABM category : Z(1) - non biodegradable substances with hazardous properties for humans and the environment (carcinogenicity/ mutagenicity/ reprotoxicity/bioaccumulative potential/ toxicity or persistence)

SZW-lijst van kankerverwekkende stoffen : None of the components are listed

SZW-lijst van mutagene stoffen : None of the components are listed

SZW-lijst van reprotoxische stoffen – Borstvoeding : None of the components are listed

SZW-lijst van reprotoxische stoffen – Vruchtbaarheid : None of the components are listed

SZW-lijst van reprotoxische stoffen – Ontwikkeling : PYRITHIONE ZINC is listed

#### Denmark

Danish National Regulations : Pregnant/breastfeeding women working with the product must not be in direct contact with the product  
The requirements from the Danish Working Environment Authorities regarding work with carcinogens must be followed during use and disposal

#### Switzerland

Storage class (LK) : LK 10/12 - Liquids

## 15.2. Chemical safety assessment

No chemical safety assessment has been carried out

# ONE CAN EGGSHELL

## Safety Data Sheet

according to the REACH Regulation (EC) 1907/2006 amended by Regulation (EU) 2015/830
